

# Release Notes

## Release 3.0.25 & Build 307

### I. Software Update Instructions:

1. Browser Users - Build number **307** should display automatically. If not, refresh your browser
2. AIR App Users – When logging in, you will be prompted asking you to update your CMS AIR App software. Click “YES” and follow the instructions
3. All Users - Verify that your Build# is **307** (Top right corner of the page). If it does not say **307**, then you are using an older version of the software

### II. Mac AIR App Users:

1. Current Users - Good news! **The PDF print function has been fixed!**
2. New Users: We now have 2 separate Mac AIR App downloads; 32 bit and 64 bit.
  - Apple MAC OS Mojave or High Sierra will use the 32-bit App
  - Apple MAC OS Catalina or Big Sur will use the 64-bit App

To assist you in determining if your computer is 32 or 64 bit, we have created a couple of screen shots, included in the installation process, that will make it easy for you before selecting the appropriate Mac AIR App.

### III. Existing Functionality Updates

Added the following fields:

1. “District” column to the Diocese Demographics Assistance Financial and Non-Financial Reports
2. “Other” field to the Assistance Reports>Non-Financial>EFSP Category
3. “Gift Card-Transportation” to Express Assistance>Resource
4. “Undisclosed” to Household>Ethnicity
5. “Email address” to Holiday Programs>Program Report and Worksheets
